Luke's Editorial

Line in the sand

Last year was tough for many plumbers.

New builds down, interest rate rises saw many people put renovations on hold or attempt DIY projects themselves to cut costs. While it may save the homeowner money, it takes away from the plumber's livelihood and also puts the community at risk.

It's a new year and time for a fresh start, its time to draw a line in the sand and force a Trade Only industry, an industry where only licensed plumbers can buy plumbing goods.

You do the training, you put in the work, and you pay the overheads, so only you should be able to carry out plumbing work.

Say no to DIY and merchants who support it by selling to the general public.

We have been beating the drum for over 20 years now. We have seen other suppliers adopt our policy, but not enough. You the plumber are the only ones who can truly embrace it by only buying from Trade Only merchants. The stick is in your hand, it's your time to draw the line in the sand!

LUKE BOLTON
DIRECTOR, PLUMBERS CHOICE

Order Templates

Have specific items you order regularly? Want to set up kits for certain jobs?

Our order templates make it easy...Simply add all the items to the cart and use the 'Save Order Template' button at checkout to create your template.

Request a Quote

Something doesn't look right? Want a Rep to look it over?

Request a personalised quote directly from the checkout page before placing your order. Simply click a button and our team will swiftly provide you with a tailored quote.

Manage Your Account

Pay your account, look up a previous order, check the status of an order, get an updated quote. Whatever you need to do, its now quick and easy, in the palm of your hand.

Favourites

Typically buy the same gear? Have things you regularly use?

You can now mark items as a 'favourite' item, then head to the Favourite Items page to access them all in one convenient location. No more scrolling endlessly to find your regularly purchased supplies.

Promotions & Specials

Be the first to know about our Promotions & Specials from the palm of your hand.

Check out our new Clearance page to see some cracking deals!

downpipe fixing can be tricky, but we have the answers

Hebel Anchor

Spiral-shaped ribs cut a positive fit in hebel

- The spiral-shaped outer ribs cut a positive fit in the soft building material
- Pre-drill with a 8mm drill bit
- Adapted for wood, self-tapping and chipboard screws of 4.0 to 5.0 diameter

8mm
\$71.50
INC. GST

CODE 1295
BAG QTY: 50

Styrowedge

Great for fixing downpipes to foam walls

Step 1 Cut a 30mm slot, 50mm deep into the wall.

Step 2 Take 2 Styrowedge halves and join the smooth sides together.

Step 3 Insert the Styrowedge into the slot in the wall. Ensure it is flush with the wall.

Step 5 Place downpipe & clip in position. Insert a 8-12 gauge screw into Styrowedge & tighten.

\$58.42
INC. GST

CODE 1222
BAG QTY: 50

Styroscrew

A screw type fastening for polystyrene walls

Step 1 Items required: Styroscrew anchors, suitable 8g screw, Phillips driver bit, cordless drill.

Step 2 Using a Phillips driver bit, screw the Styroscrew into the polystyrene wall until the flange is flush.

Step 3 Place the clip or bracket over the Styroscrew anchor and secure with the metal screw you have selected.

Thermostatic Mixing Valves provide high stability of mixed water temperatures even under changing inlet conditions

High performance Thermostatic Mixing Valves are suitable for a wide range of applications

- Ensures rapid shut down of mixed outlet flow in the event of hot, or cold water supply isolation
- Suitable for installation into AS3500 compliant systems with hot water temperature as low as 60°C
- Adjustment mechanism can be locked to prevent tampering
- Easily serviced on site
- Meets the requirements of AS4032.1

FLOW CUP TESTER

Scale measures flow rates of 0 to 17 litres per minute. Measure water flow rates to determine if suitable flow is available prior to plumbing installation.

WATER PRESSURE GAUGE

Designed to test static pressure of water supply to properties. No hoses required, fits directly to the tap. Will test up to 2500kPa.

THERMOMETER WITH PROBE

Accurate thermometer which is ideal for the temperature measurement.

TMV TEST KIT

- Suitable for use on all types and styles of Thermostatic Mixing Valves (TMV)
- Complete testing kit supplied in a handy carry case
- Comes factory set

Kit Contains: Flow cup, Pressure gauge to suit 1/2 inch and 3/4 inch BSP, Thermometer with probe

PEX SHUT OFF TOOL

Shuts 16mm and 20mm pex with ease

- No damage to pipe
- Quality aircraft grade aluminium
- Pipe returns to original shape when pressure is released
- Unlike other Pex shut off tools this tool does not require the operator to dig under the pipe to achieve shut off

What a handy tool!

I bought a PEX shut off tool because we occasionally damage water pipes while excavating. This tool shuts off water and gas pipes without having to locate the isolating valve. I have now used it successfully several times and it has got me out of trouble.

I would recommend plumbers and drainers keep one of these in the truck.
